

Septic Receiving Program

Chris Powell
Water and Wastewater Superintendent
City of Eden

Authorization:

- Before a septic hauler is allowed to discharge into our septic receiving station there are some requirements they must fulfill first.
- We only accept domestic waste from households and small businesses.
- NO GREASE TRAP WASTE!!

Authorization Form:

- Each septic hauler must receive an Authorization to Discharge form from the POTW and submit this form to the state.
- On the form it specifies what is required from the City of Eden to allow them to discharge at our plant.
- Wastewater plants that have a septic receiving program must have an individual Authorization to Discharge form for there plant. Some septic company's think if they have completed one form that it counts for all, but each is specific for each plant.

Authorization Form:

- These forms must be renewed each year and notarized.
- All our current septic hauler information is saved on file, and we send out renewals around October of each year to give them plenty of time to renew their discharge form.
- The septic company must submit their renewals to the state by the end of each year.
- We keep a copy of the notarized Authorization to Discharge from on file that we send to each septic company. If the state ever has questions, we have documentation to provide.

Documentation:

- The top portion of the ticket is for the Septic Company for their records.
- The bottom portion of the ticket is for the POTW to keep for their records. This must be signed by the operator receiving the load to show that they have inspected the load and confirmed that it is ok to receive.
- Documentation is also noted in the daily operations logbook in case there are unexpected issues with the plant process.

Documentation:

- Tickets are given to the Chief Operator and are filed away monthly.
- We keeps tickets accessible up to three years for proof of documentation to the state in case there is ever an issue with a septic hauler.
- We keep a spreadsheet to monitor the number of loads that we receive each month as well as the revenue from these loads.
