The North Carolina Pretreatment Consortium, Incorporated (NC-PC) is a non-profit 501c (6) organization representing over 150 pretreatment professionals from municipalities throughout the State of North Carolina. North Carolina's pretreatment programs cover 139 municipal wastewater treatment plants with a combined NPDES permitted flow of over 1,100 MGD, more than 75% of all municipal NPDES permitted flow in the state. Our members are making a difference in North Carolina through the industrial waste pretreatment program.
NCPC Tax ID # 56-2175365

For more information, please visit our website at www.ncpretreatment.com

- Are you responsible for your company's Industrial Waste Control Program?
- Do you manage or operate an industrial pretreatment unit?
- Have you ever wondered how we can determine who is discharging illegally into the sewer system?
- Have you ever wondered how your regulator determines appropriate enforcement actions?
- Have you ever wondered what the legal jargon in your permit means?

If you responded “yes” to any of these questions, this workshop is for you!

We will cover information from the State about enforcement, the legal issues of enforcement, an actual case study tracking down a violator, information from the EPA Criminal Investigation Division, the anatomy of an Enforcement Response Plan, and tips to help you avoid enforcement. This is information you need and should know.

Please join us on December 18th at the Sheraton Greensboro Hotel at Four Seasons. Space is limited so register early!

Lunch and breaks will be provided.

This workshop is eligible for 6 hours of continuing education credits from the Wastewater Treatment Plant Operators Certification Commission.
